Continuation - Briefly explain the reason for scholarship request, how it will impact your life and how you can help others:

and mom works on small works found in shambas for our neighbours and others with need of workers in the farm. Their payments is unable to pay for my school fees, my sisters school fees and the housing rent. One of my sister finished her highschool last year but she has not joined university due to lack of money and the other one is in Amboseli institute, she struggles with hustling in order to pay for her school fees which she lacks sometimes and stays at home. Even for me to join highschool I was helped by the church which I normally go at home.

My parents told me that in 2007 when I was young, due to clashes which was led by politics, Our house was burned, properties they had was stolen leading them to start again from zero. They had nothing left with them, its only the clothes that they had at that time when they fled away. In those clashes my father was cutted one of his hand finger. Here in school I work hard so as to help my family, build childrens homes and help vristable families. I gets good grades but sometimes I stays home due to lack of school fees making me not to attend lessons. I normally get stressed about my education and my sisters too about their education.

I would be soo glad and happy if you will help me because I will relieve my poor parents from budgeting on my school fees and use their little money atleast to enroll my sister in the university and assist the other one in Amboseli to finish her studies. I will be also happy if you will help me and my parents to pay for my school fees because I really want to achieve my dreams of helping those in need and change our family life story, thank you.
