Continuation - Briefly explain the reason for scholarship request, how it will impact your life and how you can help others:

I would like to apply for the scholarship because my family has been experiencing financial problems, in the year 2019. In June, my elder sister who was then in form three, started suffering mental illness. This affected her very much, that she could no longer stay at school with others, she was allowed to stay at home until she gets better.

Father tried all his best, so that she could get better. Father took her to hospitals, some hospital advised him to take her to more improved hospitals. Treating her was too costly, although my father was employed, still the salary he received was not enough to cater for all these needs, this made father to apply for loans, so as to settle the bills in the hospitals. Day by day she started getting better although after about eight months. Finally she regained back her good health but behind there was a huge debt to settle.

With this scholarship, I will be able to study very hard and perform well in my studies, so that the programme may continue to support me. Also I will try as much as possible so as to maintain the criteria of the programme.

With this support also my father will be able to settle the debts as fast as possible, since some of his needs will have been satisfied.

With this scholarship, I will be able to finish my education and meet my national goals of education and be an important and worthy person in the society
